

Orion 727

Multi-purpose maintenance oil pimento

- Orion 727 penetrates quickly, dissolves rust and loosens rusted parts.
- Orion 727 repels water and provides corrosion protection.
- Orion 727 produces a thin oil film that lubricates and protects.

Orion 727 is a universal, multi-purpose lubricant developed for maximum penetration and superior water repellent properties, and is suited for a range of important tasks involved in workshop tool maintenance. Orion 727 penetrates quickly and loosens parts that have rusted stuck while lubricating to enable simpler disassembly. Orion 727 contains pimento oil which gives cost-saving advantages: - Easy to apply and requires lower amounts to protect and lubricate. - Orion 727 ensures long-term protection compared to normal penetrating substances. - Provides peerless protection against rust, and can also be used before applying powerful corrosion inhibitors. - Penetrates quickly, loosens fittings and parts that have rusted stuck. - Unsurpassed water repellent properties and leaves a thin, protective film that prevents corrosion.

Use

Instructions:

Easy to apply with a syringe, brush or by dipping. Orion 727 can be used on all types of machines and equipment as rust-preventive surface protection. Ideal for protecting agricultural machines, tools, lathes, machined parts, carpentry tools and knives. Excellent for lubricating locks, hinges, chains, etc. After cleaning chains, spray with Orion 727 to ensure that corrosion-forming moisture is repelled before you lubricate with chain grease or oil.

Technical

Flashpoint : 82 °C

Boiling point : > 320 °C @ 1013 hPa

Viscosity at 40 °C, mm²/s : 24
