

Novakleen pH9

NVK pH9

FAST, SAFE AND ECOLOGICAL CLEANING

- Strong penetrating effect, causing the dirt to be "lifted".
- Non-corrosive, non-flammable.
- Can be used on synthetic materials, textiles, paint, metal, vinyl, wood, etc.
- Biodegradable.
- Fresh odour.
- Practical sprayer - ready for use.
- The ideal solution for removing sandpaper dust from synthetic materials.
- Removes stains from seat lining and carpets.
- Removes nicotine deposits, dead insects, diesel deposits.

General information

NOVAKLEEN pH9 is a powerful blend of water-soluble solvents, penetrating agents, wetting agents and synthetic detergents with the ability to attack the molecular structure of soils, greasy deposits, gummy residues and imbedded grease stains without damaging the surface itself. Soils are then detached by capillary action and emulsified for complete removal by mopping or rinsing.

NOVAKLEEN pH9 is completely biodegradable and does not contribute to water pollution. NOVAKLEEN pH9 is non-flammable and non-toxic to humans or pets. NOVAKLEEN pH9 contains a powerful corrosion inhibitor to reduce the hazard of corrosion to steel surfaces which are subject to rusting with most water-based cleaners.

Technical information and packaging

Composition: a stabilized blend of biodegradable surfactants and penetrants with oxygenated solvents and modified alkalis with no free caustics.

Flammability: not combustible.

Odour: fresh.

Colour: transparent amber.

pH: 9.

Toxicity: non-toxic when used properly - do not take internally.

Meets the AOX norm: free of Absorbable Organic Halogens.

Complies with HACCP-norm.

Shelf life: 12 months, keep dry, cool and frost-proof.

Safety measures: consult the Safety Data Sheet.

Applications and use

NOVAKLEEN pH9 can be used on all kinds of surfaces: synthetic materials, textiles, carpet, vinyl, canvas, formica, paint, metal, wood, chrome, aluminium, stone, concrete, tiles, polyester, plexiglass, rubber.

For the removal of most sorts of dirt: grease, oil, tar, nicotine, diesel deposits, dead insects, adhering dust, shoe polish, pencil marks, ...
